Contact no.: +91 8637268368,

GitHub:- <https://github.com/Eswara7373> .

OBJECTIVE

To be a part of the organization where I can get chance to use my knowledge and skills to contribute in the progress of the organization as well as myself.

SUMMARY

- Having good knowledge on HTML and CSS .
- Having knowledge on JavaScript.
- Good understanding on DOM manipulation using JavaScript .
- Good knowledge on React js, and all the concepts in it like react life-cycle components, props, conditional rendering, hooks etc.
- Good Knowledge on Node js and MongoDB .

EDUCATIONAL QUALIFICATION

Degree	School/ College/ University	Year of Passing	CGPA/percentage
B.Tech (Electronics and communication Engineering)	Lovely Professional University, Phagwara	2021	6.0/10
Intermediate (AP State Board)	Narayana Junior College,Vishakhapatnam,A.P	2017	93.5%
10 th (AP State Board)	Amarajyothi High School,Pathapatnam,A.P	2015	8.7/10

TECHNICAL SKILLS

- **Languages** : HTML, CSS and JavaScript.
- **Tools** : GitHub, vscode.
- **Framework** : React Js, Node Js.
- **Database** : MongoDB.

PROJECTS

Project #1 : Web Development

Project Title : A Blog website
Role : Developer
Technologies : React js, Node js.
Tool : Git-hub.
Project host link : <https://cliquant-seahorse-2736d0.netlify.app/>
Repository-links : https://github.com/Eswara7373/Blogapp_node_frontend ,
https://github.com/Eswara7373/Blogapp_node_backend

Description:

This project is a blog website. Which contains the news of various industries like films, technology, food, fitness. In this project I have covered all the major concepts of react js like routing, props, and hooks like use-state, and use-effect, methods like fetch etc. Where as in back-end(node js) I have covered the concepts like express framework, cors(cross-origin resource sharing), module exports, and basic http request like get, post etc.

Responsibilities:

- Gathering the information required for the project.
- Making the structural design for the project.
- Development of front-end and back-end.
- Deploying the project with all the required checks.

Project #2 : E-Commerce website

Project Title : E-Commerce website
Role : Developer.
Technologies : React js, Node js.
Tool : Git-hub.
Database : MongoDB.
Project host link : <https://fascinating-otter-7a827f.netlify.app/>
Repository-links : https://github.com/Eswara7373/ecommerce_frontend

Description:

This project is a E-Commerce website .Which is a apple store, contains all the apple products like I-phones, macbook, ear-pods etc. In this project I have covered all the major concepts of react js like routing, props, and hooks like use-state, and use-effect, methods like fetch etc. Where as in back-end(node js) I have covered the concepts like express framework, cors(cross-origin resource sharing), module exports, and basic HTTP request like get, post etc.

Responsibilities:

- Gathering the information required for the project.

- Making the structural design for the project.
- Development of front-end, back-end and database management.
- Deploying the project with all the required checks.

INTERNSHIPS/TRAININGS:

➤ Web-Developing Training :

I was trained in **full-stack web-Developing** technology in Prepbytes for a duration of 6 months i.e; (August 2022 – January 2023) which includes **front-end** and **back-end development** and **Database management system**.

EXTRA CURRICULAR ACTIVITIES

Participations:

- Participated in robotics Science and Tech Expo-2019 in Chandigarh University.
- Participated in state level football tournament in 2018, which is conducted in Karnal(Haryana).

Languages Known:

- English
- Hindi
- Telugu
